

CUSTOM DESIGNED PHOTOGRAPHY PACKAGE

with Bob Grzesiak & Mark S. Carlson
\$197.00 pp

Beginners to experts! This package is just for you!

- **Pre-trip photo seminars.** Sessions will be held in late Spring, prior to the trip. Details to be announced

- 1. Purchasing a Digital Camera / equipment for Your Cruise**

Bob & Mark help you make the right choices when purchasing photo equipment for your Alaska cruise and touring adventure. From point-and-shoot camera basics to advanced amateur DSLR cameras, you'll be more confident and proficient with whatever camera type and skill you bring on the cruise.

- 2. Capturing Alaska – Photographing Your Cruise Adventure**

From composition selection to the best settings for your camera, you will gain confidence and control with your photographs. Bob & Mark assist you in getting the most from your photographic equipment regardless of your experience or type of camera.

- **Ship board Seminars** (Seminar schedule will be given to each participant prior to the cruise):

- 1. Discover Your Alaskan Adventure I**

A review of optimal camera settings with Bob & Mark digging deeper into what makes great photographs. We will cover everything from how to hold the camera to addressing the photographic challenges we anticipate during our cruise. Participants will see real life examples, receive handouts and ask questions.

- 2. Discover Your Alaskan Adventure II**

Building on the first Discover seminar, Bob & Mark take you even further into our subject matter and explain techniques to record them at their best. From the intense blues in glacier photography and verdant greens of fiord vistas to the quick capture of wildlife sightings and majestic mountain views, you'll learn more camera techniques for the photographs you'll be proud to display and share.

- **Shipboard On-deck Photo-Op Sessions:** Bob & Mark work with the group during each on-deck photo session

- 1. Early Light Photography**

Using the early light of the day to highlight the texture and color of the shoreline

- 2. Evening Light Photography**

Using the late-day sun to capture the vistas and panoramas from our on-deck vantage points.

- 3. College Fiord Imagery**

Putting our seminars into practice as we pass these incredibly colored gems.

- **Optional exclusive group excursions** – photo coaching & instruction included if this excursion is selected

- 1. Mendenhall Glacier – Juneau**

North America's fifth largest ice field sits in Juneau's backyard, stretching across a 1,500 sq. mile area that straddles the boundary between Alaska and Canada. Join Bob and Mark on a group photo excursion exploring the exquisite local beauty of the Mendenhall Glacier, one of 38 large and more than 100 smaller valley glaciers in the Juneau ice field.

- 2. Photographing Denali National Park**

The grand prize, Denali National Park. Everything we've touched on comes together in this experiential excursion. Regardless of what Mother Nature delivers during our visit, you will be prepared to make the most of it, from Mt. McKinley to the smallest wildflowers and trees, birds and mammals. The diamond of Alaska and the highest point in North America, Mt. McKinley awaits us. Now we apply the techniques we've discussed along with our accumulated experience of the last week on board and in port. The incredible diversity of flora and fauna, wildlife and breathtaking scenes will be appreciated and captured while Bob & Mark work among the group answering questions and reviewing images as well as sharing their vision of the park. The accurate advice and constant access to both tour leaders makes the biggest difference in your ability to record these images and your enjoyment of your camera equipment as you move through the landscape on our Denali Day.

- **Post-Trip Reunion & photo contest – with prizes**
